

# EUROCONSTRUCT Summary Report, November 2016

## List of standard tables (most cover 2013-19 for each of the 19 countries)

	page #	unit(s)		page	unit(s)
<b>Total construction / overview</b>			Industrial buildings	101	euro, %
Total construction output	26	euro, %	Storage buildings	102	euro, %
New residential construction	27	euro, %	Office buildings	103	euro, %
Residential renovation	28	euro, %	Commercial buildings	104	euro, %
Total residential construction	29	euro, %	Agricultural buildings	105	euro, %
New non-residential construction	30	euro, %	Miscellaneous non-residential buildings	106	euro, %
Non-residential renovation	31	euro, %	<i>Surface area (2015 only, limited coverage)</i>	107	m2
Total non-residential construction	32	euro, %			
New building (res. + non-res.)	33	euro, %	<b>Civil engineering</b>		
Building renovation (res. + non-res.)	34	euro, %	<i>Total civil engineering *)</i>	124	euro, %
Total building (res. + non-res.)	35	euro, %	Transport infrastructure: roads	125	euro, %
New civil engineering	36	euro, %	Transport infrastructure: railways	126	euro, %
Civil engineering renovation	37	euro, %	Transport infrastructure: other	127	euro, %
Total civil engineering	38	euro, %	Total transport infrastructure	128	euro, %
Domestic cement consumption	39	ton, %	Telecommunications	129	euro, %
			Energy	130	euro, %
<b>Residential construction (mostly 000s dwellings)</b>			Water works	131	euro, %
Building permits: 1+2 family dwellings	70	000s	(Energy and Water works total)	132	euro
Building permits: flats	70	000s	Other civil engineering	133	euro, %
Building permits: total	71	000s			
Housing starts: 1+2 family dwellings	71	000s	<b>Economic &amp; demographic trends overview</b>		
Housing starts: flats	72	000s	GDP	146	euro, %
Housing starts: total	72	000s	Private consumption	147	euro, %
Housing completions: 1+2 family dwellings	73	000s	Public consumption	148	euro, %
Housing completions: flats	73	000s	Total gross domestic fixed capital formation	149	euro, %
Housing completions: total	74	000s	Construction gross domestic fixed capital formation	150	euro, %
Housing stock: total	74	000s	Exports	151	euro, %
Housing stock: second homes	75	000s	Imports	152	euro, %
Housing stock: vacancies	75	000s	Population	142	000s
Share of family dwellings	76	%	Households	142	000s
Home ownership rates	76	%	Unemployed	143	000s
			Unemployment rate	143	%
<b>Non-residential construction</b>			Consumer prices	144	%
<i>New non-residential construction *)</i>	98	euro, %	Construction prices	144	%
Buildings for education	99	euro, %	Short term interest rates	145	%
Buildings for health	100	euro, %	Long term interest rates	145	%

### Notes

There are around 60 half page or full page tables in the EUROCONSTRUCT Summary Report, covering the themes listed above. Most of these cover 2013-2019 for all of the 19 countries.

There are a few omissions, however, where data for e.g. specific types of non-residential construction or specific categories of civil engineering are not available. See list of "Missing numbers" next page.

Note that there are many more tables and figures in the text of the EUROCONSTRUCT Summary Report.

\*) repeats information on p. 30 and 38, respectively

## **MISSING data, by country**

**Note: "Table #" refers to the table numbers in the Country Report.**

*"Table 2" corresponds to "Total construction / overview" above*

*"Table 3" corresponds to "Residential construction" above*

*"Table 4A" corresponds to "Non-residential construction" above*

*"Table 4B" corresponds to "Civil engineering" above*

*"Table 5" corresponds to "Economic & demographic trends overview" above*

Austria: Table 4A: m2.

Belgium: Table 4A: Storage buildings (included in industrial) & M2 (no area measures for any type of building). Table 4B: Telecoms, Water works. Table 5: Stocks.

Czech Republic: (none)

Denmark: Table 4A: m2

Finland: (none)

France: (none)

Germany: Table 2: Cement consumption forecast Table 3: Housing starts. Table 5: Stocks.

Hungary: Table 3: Housing starts not split into types of housing. Details of housing stock. Table 4A: m2.

Ireland: Table 3: Details on housing stock. Table 4A: m2. Table 4B: 'other'.

Italy: (none)

Netherlands: Table 3: Housing starts. Details on housing stock. Table 5: Stocks.

Norway: (none)

Poland: Table 4A: m2

Portugal: Table 3: Housing starts. Table 5: Stocks.

Slovakia: Table 3: Some details on housing stock 2017-19. Table 4A: m2.

Spain: Table 5: Stocks. Forecast of construction GFCF

Sweden: Table 5: Construction GFCF

Switzerland: Table 4A: m2.

UK: Table 3: Housing permits. Some details on housing stock. Table 4A: m2. Table 4B: 'other'. Table 5: Stocks, forecast of Construction GFCF.

## **Availability and pricing**

**For more information, incl. availability and pricing of the EUROCONSTRUCT Report, please contact senior manager Anders Bjerre, Copenhagen Institute for Futures Studies, [abj@cifs.dk](mailto:abj@cifs.dk)**

(or alternatively contact your local representative, if you're based in one of the other Euroconstruct countries)
